Progress Report (Check one and complete sections I-III)

Activities are being conducted as planned.

(Total expenditure 79.6 %)

(4th Quarter at least 84% of total allocation expended)

Expenditures do not meet guideline

● **Activities are not being conducted as planned.**

I. Summary of activities conducted during the quarter (Limited to 8000 characters)

The Citrus College Adult Education consortium made great advances in continuing to address AEBG programs and objectives required by the 2015-16 Annual Plan. Members continued to subcontract funds between various members in order to better address the activities of the plan.

The Annual Plan was revised in three ways which affected pursuit of Plan activities during the 2016-17 school year. Citrus College is no longer implementing CASAS pre- and post-testing due to the onerous nature of enactment. The Annual Plan original called for Citrus College to hire four coordinators for AEBG programs and they only have hired one coordinator in ESL. Instead Citrus used those Allocation funds to equip three classrooms by replacing traditional classroom furniture with furniture designed to promote active learning. This created high density classrooms that can transition from lecture to learn mode, without interruption. Citrus also made technology upgrades (instructor computers and interactive projectors) in all five ESL classrooms, replacing outdated and non-functioning equipment. This has made a tremendous impact on ESL instruction, allowing the instructors to present instructional material in a variety of modalities and creating an engaging and interactive learning environment.

The CCAEC 2015-16 Regional Data Plan was an ambitious one and most of it is either implemented or well on the way to being implemented due to Allocation funding. Incoming K-12 students in most programs are receiving some type of placement assessment to determine their program entry academic level. Allocation funds have purchased TABE tests and all K-12 members are using the TABE for ABE and CTE pre-assessment. Counselors took part in the Counselor Pathways for Success, which included credit and noncredit counselors from Citrus and the counselors from K-12 members. CPS created community to facilitate transition from K-12 to CCCD and established pathways for use in the K-12 schools.

CCAEC Faculty Advisory Committees have made tremendous strides at alignment and integration across program areas. The CCAEC ESL Faculty Advisory Committee, comprised of faculty from Citrus College and all K-12 schools finalized ESL curriculum alignment with detailed Language Proficiency Objectives and are developing ESL level exams. This alignment process meant that Claremont and Monrovia ESL classes moved to semester classes to be the same other CCAEC members. This brought additional costs to Claremont which were covered by subcontracting of Allocation funds. The ABE FAC also met on a regular basis in a similar alignment process and completed alignment of basic education curriculum. The ASE FAC met to train on Odysseyware so that Azusa, Glendora, and Monrovia could increase elective options.

CCAEC professional development efforts became much more robust from Allocation funds. Citrus College hired two noncredit ESL Faculty Leads to evaluate ESL faculty, demonstrate best practices and high impact teaching methods, and provide mentorship to newly hired ESL adjunct faculty. Most CCAEC member institutions sent one or two faculty to attend the CATESOL conference in San Diego. Members are using a train-the-trainer model where attendees come back and present to each staff the materials, best practices, and research-based instructional strategies gleaned from the conference. All K-12 members have been engaged in ongoing professional development in the following areas: instructional strategies, using Moodle as an LMS, Odysseyware, improving adult reading and accelerated learning.

Throughout 2016-17, the consortium created many courses and programs to address gaps outlined in the 2015-16 Annual. Azusa created a bridge class to better address the low assessment scores that limit student transition into CTE courses. Monrovia created a bridge class between ESL 6 and ABE ELA. Citrus developed new Bridge to English curriculum designed to increase the successful transition from noncredit to credit ESL/English coursework. The Azusa Career/Business Center was launched to foster career exploration and job search opportunities. An internal marketing process informs students of the Center's services and visits to the Center increased. Azusa CTE teachers met quarterly to discuss challenges faced by student's prerequisite classes, and strategized on curriculum changes that would serve to increase enrollment, and improve transition options for students currently in other AAS programs. Also, Monrovia used Allocation funds to make Construction and Auto Technician programs more robust.

Citrus also hired an ESL Coordinator to recruit for the evening ESL program in an effort to increase enrollment, develop new ESL curriculum to increase the variety of ESL courses offered, and expand outreach efforts to increase enrollment and the number of sections offered.

Azusa and Monrovia expanded prep classes and test offerings during the day and at night for the High School Equivalency Test (HiSET). The partnership between the schools was vital as Azusa extensively helped Monrovia become a testing center. Both schools are seeing tremendous success with student completion rates. Students have opportunities to prepare for the exam through classroom instruction, and through online activities.

II. Reasons for lack of progress towards attainment of program improvements (Limited to 8000 characters)

CCAEC members believe that they have made progress towards program improvement. Members have utilized 80% of the Allocation funds to make noteworthy progress in implementing the Regional Data Plan, aligning ESL curriculum, developing ESL Level assessments, addressing gaps in services, increasing professional development significantly, exploring learning management systems to extend classrooms, accelerating student diploma acquisition, establishing career/postsecondary pathways, building community between member counselors, and equipping classrooms to foster active learning.

III. Reasons for expenditures falling below guideline (Limited to 8000 characters)

All K-12 member institutions have expended the entire amount of 2015-16 Allocation funds that were distributed to them. All members have had success leveraging 2015-16 funds to provide programs and address AEBG objectives, but Citrus College has internal

processes that delay expenditures. The remaining balance of Allocation funds belong to Citrus and will be expended by the December 31, 2017 deadline.

IV. Provide an explanation for major budget changes. (Limited to 8000 characters)

There were no significant budget changes.
